Aklank Public School

All India Senior School Certificate Examination (CBSE Board)   04/2018

- 71.2%

Institute of Engineering and Management(College)

Information Technology   07/2022

- Currently completing courses in Information Technology
- GPA- 8.23/10

Skills

- C
- Java(basic)
- Data Structures
- Object Oriented Programming
- Web Scrapping
- Competitive Programming
- C++
- JavaScript(basic)
- Algorithm
- SQL
- Python

Projects

Sorting Visalizer

- With the use of Basic Javascript, Html and Css Knowledge I did the code of this project. I also took help from the internet (Source: https://www.youtube.com/watch?v=pFXYym4Wbkc).
  I individually made this project in a time period of 2-3 weeks. In this Project I have shown how the sorting process of different sorting algorithms really work. With the help of this new programmers can easily learn sorting.

Desktop Voice Assistant

- While learning Python, I individually made this AI Desktop Voice Assistant which listens to your command and does task accordingly. With the help of Internet i made this (Source: https://www.youtube.com/watch?v=Lp9Ftuq2sVI)

I have only added few basic functions in it like telling time or opening an app on your command.
